YATARA CEYLON

Student Pack Benefits + 6-Member Daily Push Plan

Organized project reference for domain, hosting, payments, deployment, and parallel team execution

Prepared for: Yatara Ceylon Team
Source basis: user-provided project execution plan and resource list

Table of Contents

1. GitHub Student Developer Pack Benefits

2. Recommended Free Setup for Yatara Ceylon

3. 6-Member Parallel Push Plan

4. Day 1 — Models & API Routes

5. Day 2 — Dashboard Pages

6. Day 3 — Public Pages & Components

7. Day 4 — Shared Components, Layout, Config & Polish

8. Day 5 — Merge, Test & Documentation

9. Quick Reference — Member Assignments

1. GitHub Student Developer Pack Benefits

Claim these from the GitHub Student Developer Pack to reduce startup cost and strengthen the Yatara Ceylon deployment stack.

Need	Provider	What You Get	Cost
Domain	Namecheap	Free .me domain for 1 year + free SSL	**FREE**
Domain (alt)	Name.com	Free .app / .dev / .live domain for 1 year	**FREE**
Domain (alt)	.TECH	Free .tech domain + 2 email accounts	**FREE**
Payments	Stripe	Waived transaction fees on first $1,000 revenue	**FREE**
Hosting	DigitalOcean	$200 in cloud credits for 1 year	**FREE**
Hosting (alt)	Heroku	$13/month credit for 2 years	**FREE**
Cloud	Microsoft Azure	$100 credits + 25 free services	**FREE**
Monitoring	Sentry	Free error tracking (500K events/month)	**FREE**
MongoDB	MongoDB Atlas	$50 credit + free certification	**FREE**

2. Recommended Free Setup for Yatara Ceylon

- Domain: Claim Namecheap and register yataraceylon.me free for 1 year.
- Email: Claim .TECH for yataraceylon.tech and use the included email accounts, or use the Namecheap domain with Zoho Mail free tier.
- Hosting: Keep Vercel Hobby for now. Add the custom domain through Vercel → Project → Settings → Domains, then point DNS records from the registrar.
- Payments: Activate the Stripe student offer if needed for future expansion.
- Database: Continue using MongoDB Atlas and apply the student credit.

3. 6-Member Parallel Push Plan

Execution principle: Each member works in an isolated feature branch, pushes scoped changes daily, and avoids shared-file conflicts where possible.

Initial Setup for All Members

- git checkout main
- git pull origin main
- Create personal feature branch based on assigned module

Day 1 — Models & API Routes

Member 1 — Account Management | Branch: feature/account-management

- src/models/User.ts
- src/app/api/auth/login/route.ts
- src/app/api/auth/register/route.ts
- src/app/api/auth/me/route.ts
- src/app/api/auth/logout/route.ts
- src/app/api/users/route.ts
- src/app/api/users/[id]/route.ts
- src/app/api/users/[id]/toggle/route.ts
- src/lib/auth.ts
- src/lib/auth-edge.ts
- src/lib/rbac.ts

Member 2 — Products & Content | Branch: feature/products-content

- src/models/Package.ts
- src/models/Destination.ts
- src/models/District.ts
- src/models/DistrictPlace.ts
- src/models/FAQ.ts
- src/models/GalleryPost.ts
- src/models/Testimonial.ts
- src/models/CustomPlan.ts
- src/app/api/packages/
- src/app/api/destinations/
- src/app/api/districts/
- src/app/api/places/
- src/app/api/faqs/
- src/app/api/gallery/
- src/app/api/testimonials/
- src/app/api/plans/
- src/app/api/trip/
- src/app/api/seed-packages/
- src/data/destinations.ts
- src/data/tourCategories.ts
- src/data/transfers.ts
- src/data/places/
- src/lib/tourUtils.ts
- src/lib/trip/
- src/lib/regions.ts
- src/lib/districts.ts

Member 3 — Vehicle Fleet | Branch: feature/vehicle-fleet

- src/models/Vehicle.ts
- src/models/VehicleBlock.ts
- src/app/api/vehicles/route.ts
- src/app/api/vehicles/[id]/route.ts
- src/app/api/blocks/route.ts

Member 4 — Booking & Reservation | Branch: feature/booking-reservation

- src/models/Booking.ts
- src/models/BookingPartnerAssignment.ts
- src/models/Notification.ts
- src/models/SupportTicket.ts
- src/app/api/bookings/
- src/app/api/booking-partners/
- src/app/api/public/
- src/app/api/notifications/
- src/app/api/tickets/

Member 5 — Finance | Branch: feature/finance

- src/models/Payment.ts
- src/models/Invoice.ts
- src/app/api/payments/
- src/app/api/payhere/
- src/app/api/invoices/
- src/app/api/receipts/
- src/app/api/reports/
- src/lib/payhere/config.ts
- src/lib/payhere/hash.ts

Member 6 — Partner Management | Branch: feature/partner-management

- src/models/Partner.ts
- src/models/PartnerRequest.ts
- src/models/PartnerService.ts
- src/models/PartnerServiceBlock.ts
- src/app/api/partners/
- src/app/api/partner-requests/
- src/app/api/partner-service-blocks/

Day 2 — Dashboard Pages

Member 1 — Account Management

- src/app/dashboard/users/page.tsx
- src/app/dashboard/users/new/page.tsx
- src/app/dashboard/users/[id]/page.tsx
- src/app/dashboard/profile/page.tsx
- src/components/dashboard/UserForm.tsx
- src/components/dashboard/UserTable.tsx
- src/components/dashboard/ProfileClient.tsx

Member 2 — Products & Content

- src/app/dashboard/packages/page.tsx
- src/app/dashboard/packages/new/page.tsx
- src/app/dashboard/packages/[slug]/page.tsx
- src/app/dashboard/destinations/page.tsx
- src/app/dashboard/destinations/new/page.tsx
- src/app/dashboard/destinations/[id]/page.tsx
- src/components/dashboard/PackageForm.tsx
- src/components/dashboard/PackageTable.tsx
- src/components/dashboard/DestinationForm.tsx
- src/components/dashboard/DestinationTable.tsx

Member 3 — Vehicle Fleet

- src/app/dashboard/vehicles/page.tsx
- src/app/dashboard/vehicles/new/page.tsx
- src/app/dashboard/vehicles/[id]/page.tsx
- src/app/dashboard/fleet/page.tsx
- src/app/dashboard/fleet/blocks/page.tsx
- src/components/dashboard/VehicleForm.tsx
- src/components/dashboard/VehicleTable.tsx
- src/components/dashboard/VehicleBlockManager.tsx
- src/components/dashboard/fleet/FleetCalendar.tsx

Member 4 — Booking & Reservation

- src/app/dashboard/bookings/page.tsx
- src/app/dashboard/bookings/new/page.tsx
- src/app/dashboard/bookings/[id]/page.tsx
- src/app/dashboard/bookings/[id]/BookingStatusUpdater.tsx
- src/app/dashboard/my-bookings/page.tsx
- src/app/dashboard/support/page.tsx
- src/app/dashboard/support/[id]/page.tsx
- src/app/dashboard/notifications/page.tsx
- src/app/dashboard/notifications/create/page.tsx

- src/components/dashboard/BookingTable.tsx
- src/components/dashboard/MyBookingsClient.tsx
- src/components/dashboard/NotificationForm.tsx
- src/components/dashboard/NotificationTable.tsx
- src/components/dashboard/TicketTable.tsx
- src/components/dashboard/TicketReplyForm.tsx

Member 5 — Finance

- src/app/dashboard/finance/page.tsx
- src/app/payment/return/page.tsx
- src/app/payment/return/ReceiptClient.tsx
- src/app/(public)/payment/cancel/page.tsx
- src/components/dashboard/PaymentTable.tsx
- src/components/dashboard/FinanceStats.tsx
- src/components/dashboard/InvoiceTable.tsx
- src/components/dashboard/finance/CreateInvoiceModal.tsx
- src/components/dashboard/finance/RecordPaymentModal.tsx
- src/components/dashboard/finance/FinalizeInvoiceButton.tsx

Member 6 — Partner Management

- src/app/dashboard/partners/page.tsx
- src/app/dashboard/partners/new/page.tsx
- src/app/dashboard/partners/[id]/page.tsx
- src/app/dashboard/admin-applications/page.tsx
- src/app/dashboard/partner-application/page.tsx
- src/app/dashboard/hotel/page.tsx
- src/app/dashboard/hotel/blocks/page.tsx
- src/components/dashboard/PartnerForm.tsx
- src/components/dashboard/PartnerTable.tsx
- src/components/dashboard/ServiceBlockManager.tsx

Day 3 — Public Pages & Components

Member 1 — Account Management

- src/app/auth/login/page.tsx (or equivalent)
- src/app/login/page.tsx
- src/middleware.ts

Member 2 — Products & Content

- src/app/(public)/packages/page.tsx
- src/app/(public)/packages/[slug]/page.tsx

- src/app/(public)/destinations/*
- src/app/(public)/tours/*
- src/app/(public)/build-tour/*
- src/app/(public)/guide/*
- src/app/(public)/faq/*
- src/app/(public)/about/*
- src/components/public/PackageCard.tsx
- src/components/public/PackageFilters.tsx
- src/components/public/DestinationCard.tsx
- src/components/public/DestinationShowcase.tsx
- src/components/public/DestinationsToolbar.tsx
- src/components/public/InteractiveSriLankaMap.tsx
- src/components/public/TourBuilder.tsx
- src/components/public/TourBuilderWrapper.tsx
- src/components/public/BespokeTourPlanner.tsx
- src/components/public/TourCategories.tsx
- src/components/public/TourCategoriesCarousel.tsx
- src/components/public/JourneysGrid.tsx
- src/components/public/JourneyDayStory.tsx
- src/components/public/CuratedCollection.tsx
- src/components/public/FeaturedJourneys.tsx
- src/components/public/FeaturedJourneysClient.tsx
- public/images/packages/*
- public/images/tours/*
- public/images/districts/*
- public/images/regions/*
- public/dest_*.png

Member 3 — Vehicle Fleet

- src/app/(public)/vehicles/page.tsx
- src/app/(public)/transfers/*
- src/components/public/VehicleCard.tsx
- src/components/public/VehicleFilters.tsx
- src/components/public/TransfersTeaser.tsx
- src/components/public/transfers/*
- public/images/vehicles/*

Member 4 — Booking & Reservation

- src/app/(public)/booking-request/page.tsx
- src/app/(public)/contact/page.tsx
- src/app/(public)/inquire/page.tsx

- src/components/public/BookingRequestClient.tsx
- src/components/public/InquireForm.tsx
- src/components/public/ContactForm.tsx

Member 5 — Finance

- src/app/(public)/payment/*
- src/components/public/PackagePriceDisplay.tsx
- src/lib/CurrencyContext.tsx

Member 6 — Partner Management

- src/app/(public)/brands/*
- public/images/partners/*

Day 4 — Shared Components, Layout, Config & Polish

Member 1 — Shared Layout & Config

- src/components/layout/Navbar.tsx
- src/components/layout/Footer.tsx
- src/components/layout/DashboardSidebar.tsx
- src/components/layout/NotificationBell.tsx
- src/app/layout.tsx
- src/app/dashboard/layout.tsx
- src/app/(public)/layout.tsx
- package.json
- tsconfig.json
- next.config.ts
- tailwind.config.ts
- postcss.config.mjs

Member 2 — Homepage Sections

- src/app/(public)/page.tsx
- src/components/public/HeroSection.tsx
- src/components/public/HeroSplit.tsx
- src/components/public/HowItWorks.tsx
- src/components/public/BuildTourTeaser.tsx
- src/components/public/ExperiencesCarousel.tsx
- src/components/public/WhyTravelSection.tsx
- src/components/public/WhyYataraTextSection.tsx
- src/components/public/HeritageStory.tsx
- src/components/public/SignatureExperiences.tsx
- src/components/public/PremiumStory.tsx

- src/components/public/YataraStandard.tsx
- src/components/public/AuthoritySection.tsx
- src/components/public/FinalCTA.tsx
- public/images/home/*
- public/images/parallax/*
- public/images/themes/*
- public/Hero-Section.mp4

Member 3 — UI Components

- All files in src/components/ui/*

Member 4 — Shared Dashboard Components

- src/components/dashboard/DashboardHero.tsx
- src/components/dashboard/EmptyStateCard.tsx
- src/components/dashboard/GlassPanel.tsx
- src/components/dashboard/QuickActionCard.tsx
- src/components/dashboard/SectionHeader.tsx
- src/components/dashboard/StatCard.tsx
- src/app/dashboard/page.tsx

Member 5 — Shared Utils & Styles

- src/lib/mongodb.ts
- src/lib/utils.ts
- src/lib/constants.ts
- src/lib/validate.ts
- src/lib/validations.ts
- src/lib/audit.ts
- src/lib/rate-limit.ts
- src/lib/whatsapp.ts
- src/app/globals.css
- src/models/AuditLog.ts
- src/models/Customer.ts

Member 6 — Remaining Public Components & Static Pages

- src/components/public/SocialProof.tsx
- src/components/public/ProofStack.tsx
- src/components/public/TestimonialsOverlay.tsx
- src/components/public/RealExperiencesSection.tsx
- src/components/public/TrustedByStrip.tsx
- src/app/(public)/services/page.tsx
- src/app/(public)/careers/page.tsx

- src/app/(public)/mice/page.tsx
- src/app/(public)/news/page.tsx
- src/app/(public)/offers/page.tsx
- src/app/(public)/search/page.tsx
- src/components/public/SearchModal.tsx
- src/components/public/ConciergeButton.tsx
- src/components/public/SectionHeading.tsx
- src/components/public/ParallaxDivider.tsx
- src/components/public/MapWrapper.tsx
- src/components/public/BespokeMapSection.tsx
- public/images/logo.svg
- public/images/yatara-brand-block.svg
- public/images/footer/*
- public/images/dashboard-bg.webp
- public/images/build-tour-hero.jpg

Day 5 — Merge, Test & Documentation

- Project lead switches to main branch and merges each feature branch using non-fast-forward merges.
- Resolve conflicts carefully, especially in shared files such as package.json, middleware.ts, globals.css, and layout files.
- Push the final merged main branch to origin.
- Run final QA: build, lint, test key workflows, verify dashboards, verify booking + payment + visibility logic.

Quick Reference — Member Assignments

Member	Branch	SLIIT ID	Module
1	feature/account-management	IT21381768	Account Management + Shared Layout
2	feature/products-content	IT21381218	Products & Content + Homepage
3	feature/vehicle-fleet	IT21293504	Vehicle Fleet + UI Components
4	feature/booking-reservation	IT21381768	Booking & Reservation + Shared Dashboard
5	feature/finance	IT21293504	Finance + Shared Utils & Styles
6	feature/partner-management	IT21381218	Partner Management + Remaining Pages

Final Notes

- This document reorganizes the provided plan for easier execution and handoff.
- Branch ownership should remain strict; shared configuration files should be edited by one assigned owner to cut merge conflicts.
- Use small, reviewable commits instead of one massive push at the end of each day.
